

I Claim:

1 1. An interchangeable table top arrangement comprising:
 2 a horizontal flat substrate;
 3 a frame positioned on the periphery of said substrate and extending a
 4 predetermined distance above an upper surface of said substrate, the frame defining
 5 a recess of predetermined dimensions;
 6 a flat interchangeable insert member having dimensions equal to the
 7 dimensions of said recess so as to fit therein;
 8 first removable attaching means disposed on an underside of said insert
 9 member and second removable attaching means disposed on an upper surface of
 10 said substrate, said first and second removable attaching means engaging one
 11 another for removably securing the insert member within said recess onto said
 12 substrate; and
 13 means extending through said substrate for disengaging said first and second
 14 removable attaching means from one another to permit change out of said insert
 15 member.

1 2. An interchangeable table top arrangement according to Claim 1 wherein said
 2 first and second removable engagement means include strips of interlocking hook-
 3 and-loop filamentary material.

1 3. An interchangeable table top arrangement according to Claim 2 wherein at least
 2 some of said strips are located along edges of said insert member and along edges
 3 of said recess, respectively.

1 4. An interchangeable table top arrangement according to Claim 3 wherein said
2 strips additionally include strip members in matching X patterns on said substrate
3 and on said insert member, respectively.

1 5. An interchangeable table top arrangement according to Claim 1 wherein said
2 means for disengaging includes at least one finger hole in said substrate.

1 6. An interchangeable table top arrangement according to Claim 1 wherein said
2 frame extends beneath said substrate to form a lower recess so that the arrangement
3 may be fitted over an existing table top.

1 7. An interchangeable table top arrangement according to Claim 1, wherein said
2 insert member is provided with a theme design on its upper surface.

1 8. An interchangeable table top arrangement according to Claim 1, wherein said
2 insert member is provided with a game board design on its upper surface.

1 9. An interchangeable table top arrangement according to Claim 1 wherein, when
2 said insert member is in place in said recess, the upper surface of the insert member
3 is substantially flush with an upper edge of said frame.
